TOHOQUA MINES

Three Carloads High-Grade: W. P. Opening New Contributory Districts.

Three carloads of high-grade ore from the Tohoqua mining district on the Western Pacific near the line di-

So miles from Tchoqua.

New Camps Opening.

The Western Pactic is opening up a lot of splendid mining territory in Sait Lake, with its independent samplers and independent

NEVADA WONDER

IN BIG ORE BODY

Telling of the importance of the Nevada Wonder property, the Wonder News says:

"After the installation of the improved milling facilities January 1 the mill, having a capacity of 100 tons a day, or approximately 3,000 tons a month, at \$25.85 a ton will return \$77.550 a month gross. From this amount 10 per cent should be deducted for loss in the treatment of the ore and \$9 per ton for the cost of mining and milling. leaving a net profit of \$42.745 a month, or \$512.940 a year. The cost of mining and milling is based at \$9 per ton and experts claim the cost will not be higher than \$7.50 per ton, and that no more than 5 per cent will be lost in the treatment of the ore."

Bringing with him a large number of samples of ore from a strike made a few days ago on his lease on Auto hill, he made in the south drift from the 100-foot level of the shaft, where the ledge has been cross-cut showing a width of about six feet. The high-grade is in a streak a few inches wide following the footwall. What is believed to be the same ledge has been cut in the cross-cut at the 200-foot level. The strike on Auto hill is said to have created considerable of a sensation in National.—Humboldt Star.

PARK'S NEW ZINC MILL

********* OLD DELAMAR MINE

Three carloads of high-grade ore from the Tohoqua mining district on the Western Pacific near the line dividing Washoe and Humboid counties, this week reached Sait Lake county, where they have been campied and are insent mining man of Nevada, who just returned from an eastern business trip, is looking after two carloads from the surface from the surface from the Justiness of President John Intract, and H. W. Cogswell is handling the other car from the Jim Haser property. John F. Haeney & Reno is see returns and H. W. Cogswell is handling the other car from the Jim Haser property. John F. Haeney & Reno is see returns and H. W. Cogswell is handling the other car from the Jim Haser property. John F. Haeney & Reno is see returns and H. W. Cogswell is handling the other car from the Jim Haser property. John F. Haeney & Reno is see returns and H. W. Cogswell is handling the other car from the Jim Haser property. John F. Haeney & Reno is see returns and from 150 ounces silver up. It is worth \$100 or better a ton. This is ore taken from the Jim Haser property is six miles for a test than anything. The company itself is making no shipments as it is just getting ready to start up a new tiefs is making no shipments as it is just getting ready to start up a new tiefs is making no shipments as it is just getting ready to start up a new tiefs is making no shipments as it is just getting ready to start up a new tiefs is making no shipments as it is just getting ready to start up a new tiefs is making no shipments as it is just getting ready to start up a new tiefs is making no shipments as it is just getting ready to start up a new tiefs is making not hipments as the surface down. The ore generally transported the surface down. The ore generally transported to the property is following the vell on an incline. The vent is any should be a surface to the property is six miles distance on Division Peak between the counties.

The Jim Raser property is six miles distance on Division Peak between the counties. The carries of the pro

The new zinc mill of the Grasselli PRICES STILL FIRM

(By Badger Bros.' Private Wire.)

Boston, Oct. 28.—Trading in the Boston copper shares has been very narrow. Price changes are without significance. About the only active feature has been Lake, which is somewhat firmer. Other departments of the market are less active than yesterday, but prices are holding firm. There is good absorption of American Tellaround 141.—Hayden, Stone & Co.

The new zinc mill of the Grasselli Chemical company on the flat north of Park City, will be completed in a month and a half, and within ninety days it will be in operation. This mill is to treat the tailings that have accumulated from the overflow at Poison creek. This creek has carried off the waste from the many mills for years and the accumulation is 3,500 feet long. So they contain the complete of the first of the days of the first of the complete of the first of the complete of the first of the firs

M. C. Morris, general manager of the Horn Silver Mining company, has gone to be had for delivery middle of December.—
reau.

STRIKE

ON AUTO HILL

M. C. Morris, general manager of the Horn Silver Mining company, has gone to New York to attend a special meeting of the directors. Last September, Ambrose I. Harrison, president of the company, died, and the principal object of the meeting is to choose another director and a president of the company to succeed the deceased. Mr. Morris expects to return home about November 5.

November 5.

The regu'ar annual meeting of the company will be held in December, as usual, and as a rule this meeting is held in Salt Lake. At the December meeting it is pretty well decided that the directors will pass favorably on the proposition of erecting a concentrating plant at the mine to handle the largest towards of the proposition of the proposition of the same to handle the largest towards of the proposition of the same to handle the largest towards of the same to handle the largest towards of the same to handle the largest towards of the same towar large tonnage of low-grade ores both blocked out and now stored away in the abandoned workings of the mine.

LIVELY PANNING SHOW AT BOISE FAIR

At the mineral exhibit at the Idaho Intermountain fair at Boise, which closed last Saturday, the Jupiter Mountain Gold Mines company, whose quarts claims are located on the divide between Moore and Grimes creeks, and seven are right miles outlined to the seven of the seven who was a seven or sight miles outlined to the seven who was a seven or sight miles outlined to the seven who was a seven or sight miles outlined to the seven was a seven or sight miles outlined to the seven of t seven or eight miles southwest of Idaho City, carried off first honors for the best gold ore from any county in Idaho, a prize of \$100, and won first place for

Turn a Draught to Good Account

Often in winter you dare not open a window, even though the room be warm, because the cold air makes a draught that is dangerous. With a Perfection Oil Heater there need be no danger from draughts.

Open the lower part of the window a little, put the Perfection Oil Heater in front of it, and the cold draught will be turned into a pleasant, healthful current of fresh air. The

SMOKELESS OIL HEATER Absolutely smokeless and odorless

gives just as much heat as you desire. It is safe, odorless and smokeless. Has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove to clean and drop back. Burner body or gallery cannot become wedged, because of a new device therefor; it can be easily and quickly unscrewed for rewicking,

An indicator shows the amount of oil in the font. Has a cool handle. Filler-cap is put in place like a cork in a bottle, and is attached to the font by a chain. Finished in japan or nickel, strong and durable, well-made, built for service, and yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the Continental Oil Company
